Greater Depression Marks the Opening

of the Week on New York 'Change.

Bears in Full Control of the Market and High Rates of Interest Charged-Indianapolis Cereals Take Another Drop.

THE BOND MARKET. Bailway and Miscellaneous Issues Weak and

Lower-Sales \$1,202,000.

At New York, yesterday, money on call opened stringent and afterwards declined and closed easy. Loans ranged from per cent, per diem and interest down to per cent, per annum, the last loan being made at 3, closing offer at 3.

Prime mercantile paper, 8@12 per cent. Sterling exchange was weak, with actual business in bankers' bills at \$1.79@4.80 for sixty days, and \$4.81% @4.82% for demand. Silver certificates were neglected.

The week opened with great depression on the New York Stock Exchange. The bears were in full control of the market, owing to a decline in Americans in London, the reports of financial embarrassments in Chicago, the further break in wheat and the difficulty of obtaining time money. Call loans here opened at 4s per diem and interest, and there were apprehensions of a squeeze. The active stocks yielded anywhere from 1 to 5 per cent., the dividend and nondividend paying shares suffering alike. Among the specialties Pullman broke 9, to 133, and American Tobacco 7, to 43. There was very little support from the professionals identified with the bull side of the account, and it was not until the shorts attempted to borrow stocks to make delivery that any decided change occurred. When the demand to borrow set in it was found that some of the active stocks, like Western Union, General Electric and New York Central, commanded anywhere from is to be per cent. per diem for use, and a disposition to cover soon manifested itself, In the meantime the engagement of \$1,000,-000 gold for shipment to New York and and about \$750,000 to Chicago was reported from London. Or r foreign advices were to the effect that .urther amounts would probably be shipped this way during the next few days. These advices were corroborated to some extent by the heavy export demand for wheat, following the break in the price of the latter. The announcement that the New York clearing house had issued \$2,525,000 loan certificates had comparatively little effect, it being understood that it was for the purpose of assisting gold importations. There was an active investment inquiry for stocks throughout, and the execution of these orders assisted in the late recovery. The advance from the lowest figures of the day was equal to 1@5 per cent. Burlington & Quincy, Northwestern, Rock Island, Louis-ville & Nashville, New York Central, Gen-eral Electric and Western Union closed from 4 to 34 per cent. above Saturday's final figures. Although prices reacted 4 to 1 per cent, from the highest, the market left off firmer in tone.

The railway and miscellaneous bond market was weak and lower. The sales were \$1,202,000. Government bonds were weak and State bonds dull. Closing quotations were:

#### LUCAL GRAIN AND PRODUCE. Duil Day in Trade Circles, with Lower

Prices in Some Lines, It being the last day of the month trade was very quiet on the wholesale streets yesterday. Grocers, wno seldom complain, speak of trade as unusually quiet, but look for a revival with the coming in of August. Poultry is very firm at quotations; eggs easier, with a large per cent. of bad stock; cabbage advanced 25 cents per barrel, and potatoes dropped 25 cents per barrel. Peaches in light supply, small and half ripe. Few oranges are on the market, but lemons are in better supply and small. Watermelons are not as plenty as last week, and prices for large ones are higher, some selling as high as \$25 per 100. Changes in provisions will be noted to-day. The seed market

shows some signs of slight improvement. The local grain market is active at the prevailing prices. No. 2 red wheat drooped to 50 cents per bushel, and several grades of corn went off to. Track bids ruled as Wheat-No. 2 red, 50c; No. 3 red, 45c; re-

WITH A HEAVY DULL THUD

Another Slump in Wheat, Cash Touching 53 3-4c and September 57 3-4.

Chicago Operators Not Only Astonished, but Absolutely Dazed, When They Found It

## Hard to Sell at Almost Any Price.

Corn Tumbled in Sympathy with Wheat-Provisions A most Firm.

TRADING AT CHICAGO.

CHICAGO, July 31.-There was another bad slump in wheat on 'Change to-day and another low-price record was scored, cash wheat at one time being worth only 53%c per bushel, while September sold as low as 57%c. The nominal value of July wheat at the close was 564c and September left off at 59 %c, or 2 %c under its closing value on Saturday. New York, up to the close, had disposed of 110 boatloads of wheat for export, and here it was claimed that 475,000 bushels had been worked by a Chicago house fortunate enough to have been able to place the exchange. The traders in wheat appeared perfectly dazed when the market opened and holders were found anxious to dispose of their property at almost any price any one chose to offer for it September wheat, which closed on Saturday with apparent firmness at 614c. was practically unsalable until it was urged on buyers at 58c. There were a few lots disposed of in the opening meles at from 59% a down to 59c, but before buy ers came forward in any number the price was 58c, and even 57% c was all that could be obtained for an instant. Cash wheat was nominally worth only 53% o at the time that September touched 57 4c. Lyon and Hulbert were unable to meet their margins, and gave notice to the secretary of the board to close out their deals. Foreign markets were easier at the opening. Chicago receipts were 120 cars, and Minneapohs and Duluth got 250 cars, or just 50 per cent, of the receipts of last year. The quantity on ocean passage decreased 1,800, 000 bushels, and the visible supply in this country increased 416,000 bushels, but neither of those matters received much attention from the speculators. The reported engagements of gold abroad for shipment to this country and liberal purchases of wheat for export both here and at New York infused a little stiffening into the trade toward the close and left September wheat at 59 %c. The high price of New York exchange continues to be the chief factor in limiting the eastward move-

In sympathy with the demoralization in wheat a drop in the price of corn was inevitable. The decline, however, was less | and panicky; opened 1 so off, then declined than le per bushel when at its lowest point. September, which closed on Saturday at 38%c, opened at 38%c and tumbled at once to 37%c. It worked back and forth between 374c and 384c during the greater | day; No. 2 red, cash, after selling down to part of the session. It made a | 52 20, closed at 53 40 bid; August, 5340; Sepheld around 38e for the most part of the latter half of the session. The weather continues hot and dry in Indiana, Illinois and Missouri, but no complaints to speak of are heard about the growing crop. Trade was at no time brisk. The day's local receipts amounted to 513 cars. The visible increased 419 bushels. The market was fairly steady toward the end and closed with sellers at 88 so for September.

Only a moderate business was transacted in oats. The market opened steady and grew slightly firmer shortly after, but eased off somewhat in sympathy with the othermarkets. July fell off considerably, but the shortage was all covered, and holders had to take what shippers would offer. Two hundred and sixty cars, including 103 of new oats, were received. There was a decrease of 496,000 bushels in the visible supply. September started at 23%c, sold up to 284c. then declined to 23c and closed at 23 8c. July sold at 21%c. May opened at 28c, sold up to 28%c, down 27%c and up again to

There were 22,000 hogs at the yards and they sold at about Saturday's rates. Provisions opened quite weak on account of the sudden drop in wheat at the opening, but the clique pegged September lard at 9.70c, and the packers came to the rescue of the ribs market after it had a considerable drop. September lard actually closed .060 higher than on Saturday and September ribs from .074c to .10c higher. October lard was weak and left off .20c lower. There was a fairly active business done and trading was much more general than of late. Freights were easy at 1%c for wheat, and 14c for corn to Buffalo and 34c for wheat and Se for corn to Kingston. Estimated receipts to-morrow are: Wheat, 327 cars; corn. 900: oats. 850: hogs. 15.000. The lead-

points up and others unchanged, closed steady from 5 points down to 5 points up; sales, 11.200 bags, including: August, 15.55c; September, 15.55@15.60c; October, 15.45c; November, 15.40@15.45c; December, 15.30@ 15.85c; March, 15.05@15.10c; May, 14.80c; spot Rio dull and nominal; No. 7, 16<sup>1</sup>2@ 16<sup>1</sup>8c. Sugar—Raw dull and firm; refined steady and quiet.

GRAIN AT HOME AND ABROAD.

Figures Showing the Quantity in Sight in the United States on Saturday. NEW YORK, July 31 .- The visible supply of grain in store and affoat on Saturday, July 29, according to the statement compiled at the New York Produce Exchange, was as follows: Wheat, 50,350,000 bu, an increase of 446,000 bu; corn. 8,022,000 bu, an increase of 421,000; oats, 1,702,000, bu, a decrease of 46,000; barley, 359,000 bu, a decrease of 18,000.

The Foreign Grain Trade. LONDON, July 31.-The Mark Lane Express, in its weekly review of the British grain trade, says: Where the wheat crop is bad it is very bad. Where it is good it is barely good. The average yield is not expected to exceed twenty-seven bushels to theacre, which will make a total of 7,087,500 quarters, against 8,000,000 quarters in 1892. The growth of root crops, including potatoes, has been highly favorable lately. The cool, showery weather has been advantageous only to oats and barley in backward districts. There will probably be a very fair second hay crop and an improvement in the pastures. There is a reduced demand in the market for all sorts of feeding stuffs. At to-day's market English wheat was unchanged. Foreign wheat was 6d lower. American flour declined 3d persack. Malting barley was unchanged; feeding was 6d lower. Oats were irregular and cheaper. Corn was from 3d to 6d lower.

#### TRADE IN GENERAL

Quotations at St. Louis, Philadelphia, Balti-

more. Cincipnati and Other Points. ST. LOUIS, July 81.—Flour weak but prices unchanged. Wheat was demoralized 1'sc more, with active selling. Shorts bought heavily, but it did not stop the craze to sell. Later there was a reaction. and the close was firm at 14c below Saturto 87%c about midday, but tember, 574 @57%c; December, 65%c, Corn opened %c lower, but reacted 4c and closed %c under Saturday; No. 2 mixed, cash, 34c. August, 34 sc; September, 35c; the year, 53c. Oats lower; July deals were settled down to 27c, and No. 2, cash, subsequently sold at 23c; August, 224c; September, 224c. Rye and barley-No trading. Roots for Swine. The cheapest winter feed for swine are roots. They may not have so much nutriment in themselves, but they cause the hog to get more out of his other feed, just as a good clover pasture causes the hog to get more out of grain. Turnipe and rutabagas may be grown on the land from which early potatoes or sweet corn has been removed; or a piece of clover sod may be

broken up after the hav is harvested. in the pige' trough. The fighting pige will cause you to spill a good part of the slop. and resting your weight on your abdomen. supported by a rail, is not healthful exercise. Pass a trough through the pen into the other trough. And if you nail a board over the top of the first trough the pigs cannot stop it with their noses and waste the

slop when it is poured in. The old-fashioned way is to dip the buckets in the slop barrel, lift them out with a hard, high lift, all dripping and overflowing with greasy stuff, and so carry

greasy, dirty clothes. The new way is to

set the barrel up on blocks and dish out a place for the bucket to set, and then put a big faucet to the barrel. This way there is no hard lifting, no buckets greasy on the outside, no drop or overflow. A little pains to sun-scald the troughs, if they get sour under cover, will pay. If it be damp and cloudy scald them out with boiling water and feed a few handfuls of powdered charcoal to correct acidity of the

hogs' stomach. Paraley said to be entirely effectual in removing the odor of onions after a meal. The green sprige should be eaten as celery is, with the onions or the potato salad; not cago, 3712c; No. 3, 354c; No. 3 white, 87c; little more life in some quarters of the dry-goods | left to be taken after dinner or supper.

THE

# INDIANAPOLIS

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers

indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing. It is the purpose of the Journal to

make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State, Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater conlight weights, \$5.80@6; extreme heavy, \$5.25 sequence, is able to reach its subscribers @5.6). Thirteen carloads of hogs were without delay. The running of morn-shipped to New York to-day. ing trains from Indianapolis is very favorable to the early distribution of BUFFALO, July 31.-Cattle-The market | papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are fair demand at the decline. Mediums and | printed. In the more remote counties there is but little loss of time in trans-

The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having

a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful

supervision for each department. The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany. Don't lean over the fence to pour the slop | agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents. Circulars sent on appli-
